

▶ **CONTINUOUS ENERGY**

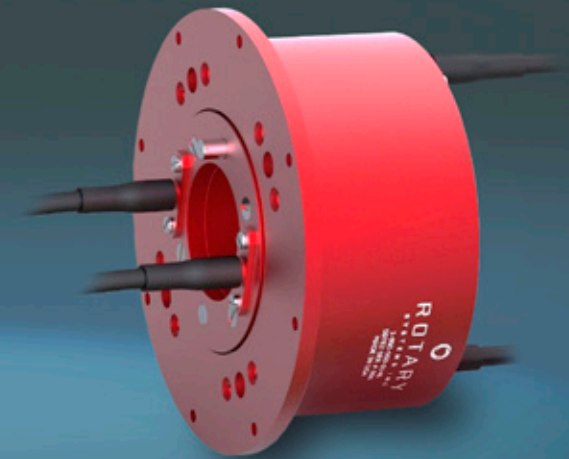

**STANDARD AND CUSTOM SLIP RING ASSEMBLIES FOR POWER, SIGNAL & DATA**

⓪ **STANDARD SLIP RING ASSEMBLIES**

- Anodized Aluminum Enclosure
- Optional Environmental Protection to IP68
- Precision Ball Bearings
- Proven Precious Metal Contact Technology
- Power Circuits - Silver Brushes on Silver Rings
- Signal Circuits - Silver Brushes on Silver Rings
- Max. Speed 10,000 RPM without Cooling
- Optional Gold Wire Contacts on Gold Rings

⓪ **CUSTOM COMPACT SLIP RING ASSEMBLIES**

- Max. Current 50A
- Max. Voltage up to 600V
- Signal and Data - Including Profibus, 100BaseT, Ethernet & CANbus
- Gold Wire Contact Technology
- Low Electrical Noise
- Long Operating Life without Maintenance
- Can be Sealed to IP68
- Custom Wiring and Connections

⓪ **HIGH POWER ASSEMBLIES UP TO 250 AMPS**

- High Power Rings - Up To 250 Amps
- Enclosure of Corrosion Resistant Materials and Coatings
- Power Circuits - Carbon Brushes on Copper Alloy Rings
- Optional Heating Elements for Low Temperature
- Custom Wiring and Connections

**TYPICAL APPLICATIONS**

- Wind Turbines - Power, Data, Ethernet, CANbus
- DoD/Military - Tank Turret, Radar, RPV, Fire Control
- Video Surveillance Equipment
- Stabilized Platforms • Oil and Gas Exploration
- Welding Tables • Packaging
